

No Guts, No Glory!

Help your patients learn to love their gut!

There is probably no health condition that has further reaching effects than leaky gut. Increased permeability of the gut lining allows for the passage of toxins, pathogens, and undigested food particles to enter the body leading to system-wide inflammation. Almost all chronic conditions have a leaky gut component, and restoring GI health is an essential step in managing any patient.

Although we think of leaky gut being based in the small intestine, the entire system must work in harmony to function.

DesBio provides a comprehensive line of formulas to restore and repair digestive health.

DesBio's signature approach to patient care captures the power of the three pillars of integrative medicine - nutritionals, botanicals and homeopathics

Mouth

NEW! BioPro ENT

Esophagus and Stomach

ReFLUX

NEW! Gastrozyne

Pancreas

Digestaze

Small Intestine

NEW! Leaky Gut Formula
Intestinal Restore
Ileocecal Valve Support

Colon

OmniFiber

NEW! BioPro ENT

Digestion begins in the mouth and is dependent upon healthy teeth and gums. **BioPro ENT** is a chewable probiotic formula that contains ingredients targeted toward supporting microflora balance in the mouth and upper respiratory system.

DesBio's Comprehensive Line of Formulas to Restore and Repair Digestive Health

The GI tract is a complex system dependent upon the function of multiple segments. In fact – the entire system is nearly 30 feet long! When supporting GI health, encouraging optimal function in each step of the digestive pathway is essential to promote recovery. DesBio combines gut-healing nutrients, enzymes, targeted homeopathics, and probiotics to support the mouth, esophagus, stomach, small intestine, and the colon.

ReFLUX

Backflow of gastric juices into the esophagus can cause patients discomfort as well as interfere with digestion. **ReFLUX** is a homeopathic formula for the temporary relief of symptoms related to heartburn and esophageal reflux.

NEW! Gastrozyne

Secretion of hydrochloric acid is essential for protein and mineral digestion as well as protecting the gut from pathogenic material. **Gastrozyne** combines two forms of hydrochloric acid, pepsin, and digestive enzymes to encourage proper function of the stomach's digestive processes.

Digestaze

A combination enzyme formula featuring proteases, lipases, and amylases along with brush border enzymes. **Digestaze** also contains specialty enzymes designed to support healthy inflammatory responses, break-down sensitivity-causing foods, and facilitate immune activity against common intestinal pathogens.

NEW! Leaky Gut Formula

A homeopathic combination for the temporary relief of symptoms related to leaky gut syndrome such as fatigue, seasonal allergies, joint pain, constipation, mental foggy and diarrhea.

Intestinal Restore

A powder featuring Tegrice[®], which contains antibodies and immunoglobulins that strengthen the integrity of the intestinal lining, soothing inflamed tissues, and encouraging healthy digestion of macronutrients.

OmniFiber

A convenient fiber supplement designed to support regular and healthy elimination. **OmniFiber** serves as a prebiotic to support proliferation of healthy bacteria and may aid the body in the elimination of endotoxins.

Ileocecal Valve Support

Targeted homeopathic for the temporary relief of symptoms related to Ileocecal Valve dysfunction including pelvic pain, fever, headache, bad breath, ringing in ears, diarrhea, and constipation.

NEW! BioPro Acute

Providing a high dose of *Saccharomyces boulardii*, an aggressive probiotic yeast ideal for combating acute disruptions in microflora balance. **BioPro Acute** is ideal for patients who are traveling, experiencing diarrhea or food borne illnesses, or who have been on antibiotics.

NEW! BioPro GI

Each serving of **BioPro GI** provides 50 CFU to quickly repopulate the GI with health-promoting bacteria. An excellent long-term support product for patients experiencing health issues related to chronic dysbiosis, including food sensitivities, on-going GI symptoms, and immune dysfunction.
